Abstract. All articles *must* contain an abstract. The abstract text should be formatted using 10 point Times (or Times Roman, or Times New Roman) and indented 25 mm from the left margin. The abstract follows the addresses and should give readers concise information about the content of the article and indicate the main results obtained and conclusions drawn. The abstract should generally be restricted to a single paragraph with word limit of 200. 10 pt, Times

2.1. A subsection space before 12 pt, italic

Some text.

Subsubsections should end with a full stop (period).

2.1.1. A subsubsection. The paragraph text follows on from the subsubsection heading but should not be in italic.

3. Figures and tables space before 12 pt, bold

Figures and tables should be numbered serially and positioned (centred on the width of the page) close to where they are mentioned in the text, not grouped together at the end. Each figure and table should have a brief explanatory caption.

3.1 Examples space before 12 pt, italic

The following examples show how to format a number of different figure/caption combinations. **Note that the table borders are shown as broken lines for guidance only.**

Text size: 11pt, Times

Line thickness: no thinner than 0.25

The caption should finish with a full stop (period).

Wider figure/wider caption

space before 6 pt, bold

Figure 1. In this case simply justify the caption so that it is as the same width as the graphic.
